

## UCSF Current Issues in Anatomic Pathology

*Lunch tutorial*

# Things I have learned from problem consult cases

**Charles Zaloudek, MD**

**Professor of Pathology, UCSF**

Friday, May 27, 2011

12:15 P.M. - 1:15 P.M.

### **TOPICS COVERED**

This Tutorial will present and discuss cases that illustrate issues related to:

1. Uterine and cervix pathology
2. Ovarian and fallopian tube pathology
3. Vulvovaginal pathology

### **OBJECTIVES**

Participants will:

1. Review a challenging set of diagnostic problems in surgical gynecologic pathology.
2. Learn about new pathologic entities and how to diagnose them.
3. Learn what special and immunohistochemical stains can help with difficult diagnoses
