Current Issues in Anatomic Pathology

May 26-28, 2016

This annual course addresses a wide range of topics in anatomic pathology and explores new and evolving areas in the diagnosis and analysis of disease. It aims to provide the latest practical and theoretical information that will aid the practicing pathologist in solving those problems most often encountered in the anatomic pathology laboratory. An audience response system will facilitate questions and discussion. An electronic course syllabus will be provided for all participants. Participants will be able to register for either the entire three-day meeting or for any combination of individual one-day segments.

OBJECTIVES

The principal objective of this activity is to identify areas of diagnostic difficulties and challenges in everyday surgical pathology and cytopathology practice, and to provide expert insight on selected topics through different educational formats. Educational experience is further enhanced through collegial contact and one-on-one interaction throughout the course. The topics selected each year reflect areas in which substantial information and progress have been made (as identified through recent publications and other data gathering efforts). The topics of discussion also focus on areas in which there is significant difficulty in interpretation of pathological features. In general terms, we expect that at the end of this course, the participants will be able to:

- identify common mistakes and pitfalls in the diagnosis of breast, gynecological, gastrointestinal, hepatobiliary, hematolymphoid, and soft tissue diseases in everyday surgical pathology;
- recognize mimickers of specific diseases in each specialty;
- learn to interpret special studies that will allow easier differential diagnosis;
- learn the pertinent histopathological characteristics of diseases to allow unequivocal diagnosis;
- identify new and additional components of the pathology report that will improve its clinical value;
- learn about the recent changes/modifications in the pathological classification of diseases or lesions.

32ND ANNUAL UCSF

Current Issues in Anatomic Pathology Cytology Seminar

Wednesday, May 25, 2016

CYTOLOGY SEMINAR (SFVAMC, Bldg. 2, Floor 3, Anatomic Pathology)

Enrollment in this seminar is limited to **18 persons** on a first-come, first-served basis. The seminar will be held on the UCSF San Francisco VA Medical Center campus.

Shuttle service will be provided between the Hotel Nikko and the San Francisco VA Medical Center.

Seminar Registration Fee: **\$315**. Enrollment limited to 18.

Please call the registration office (415-476-5808) to verify space is available before sending payment for the Cytology Seminar.

Faculty

Sarah M. Calkins, MD – Assistant Professor of Pathology

Kirk D. Jones, MD – Professor of Pathology

Elham Khanafshar, MD – Associate Professor of Pathology

Annemieke van Zante, MD, PhD – Associate Professor of Pathology

Course Chair: Laura Tabatabai, MD – Professor of Pathology

EDUCATIONAL OBJECTIVES

At the end of the cytopathology course, the learner will be able to identify common and uncommon problem areas in Pulmonary, Body Fluid, Thyroid, and Squamous Head and Neck cytopathology practice, recognize potential pitfalls, develop a differential diagnosis, understand the use of ancillary immunohistochemical and molecular studies, and identify the practical benefit of special techniques to aid in cytological diagnosis of challenging neoplastic and non-neoplastic lesions in these areas.

ACCREDITATION

The University of California, San Francisco School of Medicine (UCSF) is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

MAP16001A: UCSF designates this live activity for a maximum of 21.75 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

This Activity meets the American Board of Pathology's Maintenance of Certification (MOC) requirements for Part II (CME and SAMs) lifelong learning. Participants in MOC may earn up to 15.25 SAM credits.

MAP16001B: UCSF designates this live activity for a maximum of 6.25 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

This CME activity meets the requirements under California Assembly Bill 1195, continuing education and cultural and linguistic competency.

GENERAL INFORMATION

Advanced registration closes one (1) business day prior to start of course.
