ISSUE 16: APRIL 2023

USCAP Annual Meeting 2023

Summary by: Linda Ferrell, MD

Although our department has typically maintained a consistently extensive involvement in USCAP through the past 20 years, this year we broke our record of accepted abstracts (49) and also platform presentations (15). This degree of participation and acceptance of abstracts/short courses is one of the highest levels of overall recognition and presence of any of the top institutions at the USCAP Annual Meeting, and represents an amazing accomplishment. In summary of the attached USCAP Master Schedule (included below), the department members, both faculty and trainees were involved in the following:

Total abstracts 49 (34 posters & 15 platforms)

35 faculty involved with abstracts, with 20>1 abstract, and 13>2 abstracts.

16 trainees and 1 UCSF medical student involved with abstracts, 1 trainee (D Bahceci) with "moderated poster" (mentor/PI Andrew Horvai).

Short courses 5 (Won-Tak Choi, Nick Ladwig, Joe Rabban, Sarah Umetsu, & Kwun Wah Wen)

Moderators 6 (Companion meetings: Arthur Purdy Stout: Kirk Jones; Pancreatobiliary: Grace Kim; International Society of Urological Pathology: Emily Chan; International Society of Gynecological Society: Joe Rabban; Platform sessions: Neuropathology/Ophthalmic Pathology and Dermatopathology respectively: Melike Pekmezci and Iweh Yei)

Other speakers: Exhibitor Seminar: George Dfeterios; American Assn of Neuropathology: Cathryn Caldwell; Assn of Directors of Anatomic & Surgical Pathology: Joe Rabban; American Assn of Ophthalmic Pathology: Melike Pekmezci; Interactive Microscopy (Intraoperative Diagnosis in SP): Melike Pekmezci.

Honored mentors: Zoltan Laszik, Joe Rabban, and Linda Ferrell (total list of honored mentors: 36)

USCAP AWARDS 2023

Linda Ferrell, MD, Emeritus Professor, was presented the **President's Award** at the USCAP Annual Meeting March, 2023, at the opening session in New Orleans, LA by Dr. John A. Hart, current President of USCAP. This Award recognizes extraordinary support, devotion, and service to the Academy. Dr Hart introduced her with a short biography of her many contributions to USCAP over the 25+ years as a member as well as other personal anecdotes and accomplishments. As per the USCAP definitions: "The President's Award was established so that each year the President and the Executive Committee would have the opportunity to recognize an individual for outstanding service to the Academy and the field of pathology. The award is conferred at the sole discretion of the President without requirement for it to be given annually. It is presented at the awards ceremony during the Annual Meeting. The awardee is introduced by the President and receives a commemorative trophy."

Awards

USCAP Companion Society Awards

Constance Chen, MD, (trainee) won **First Place Best Abstract Award** from the International Association of Chinese Pathologists (IACP), which comes with a cash award. Her abstract was presented as a poster, with co-authors listed and titled as follows: Chen CV, Francois R, Mully T, Sangoi AK, Simko J, Leboit P, and Chen E. Positive NKX3.1 as a Diagnostic Pitfall for Prostate Cancer in Extramammary Paget's Disease of Genitourinary Sites

Nesli Kayraklioglu, MD, PhD (trainee) was the recipient of the **First Prize Abstract Award** in the International Society of Gynecological Pathologists (ISGyP) competition for best poster presentation by a trainee at the 2023 USCAP Annual Meeting for the poster entitled “High Tumor Mutational Burden Predicts Recurrence in Copy Number Low Early Stage Endometrial Cancer and is Associated with ARID1A and TP53 Mutations: “Practical Implications for ARID1A and P53 Immunostaining as a Triage Tool”, co-authors W.P. Devine, MD, PhD, J.T. Rabban, MD, MPH. The award comes with a \$US 500 cash prize. Dr Kayraklioglou also co-authored 3 other abstracts at the meeting as well, one of which she presented as a platform at the Quality and Patient Safety section.

Ruth Zhang, MD (Surgical Pathology AP3 fellow) was the recipient of the runner-up prize awarded by the Rodger Haggitt Gastrointestinal Pathology Society (GIPS), with a gift award of \$250 and a certificate. The award for her abstract entitled: “DNA Content Abnormality Frequently Develops in the Right/Proximal Colon in Patients with Primary Sclerosing Cholangitis and Inflammatory Bowel Disease and is Highly Predictive of Subsequent Detection of Dysplasia”. Other authors include mentor and PI Won-Tak Choi, MD, PhD, as well as P.S. Rabinovich, MD, PhD, A.N. Mattis, MD, PhD, and G.Y. Lauwers, MD. This abstract was presented as a platform presentation in the GI section at the USCAP 2023 Annual Meeting.

Other Awards

Drs Poonam Vohra (Associate Professor), **Nancy Greenland** (Asst Professor), and former UCSF resident **Cornelia Ding** (MD, PhD, currently at Johns Hopkins) received the inaugural award for Diversity, Equity and Inclusion (DEI) for their platform presentation at the International Academy of Pathology & American Society of Cytopathology Annual Scientific joint meeting in Baltimore Maryland. The award for “The best scientific paper advancing DEI goals” was presented by the ASC committee for DEI and funded by the ASC Foundation. The platform was presented by Cornelia Ding based on work with Poonam Vohra and Nancy Greenland and titled: Urine Cytology in Patients with Gender Confirmation Surgery and Hormone Therapy: Highlighting the Performance of Urine Cytology in an Underserved Patient Population

UCSF School of Medicine Teaching Awards

Two of our faculty have recently received prestigious teaching awards from the UCSF School of Medicine in recognition of their outstanding medical school teaching.

Dr. Poonam Vohra received the 2022 School of Medicine Excellence in Teaching Award. This is a peer-nominated award selected annually by the esteemed UCSF Haile T. Debas Academy of Medical Educators.

Dr. Henry Sanchez has received the 2021-2022 Bridges Curriculum – Foundations 1 and 2 Teaching Awards for Excellence in Small Group Instruction by Faculty Member. This is a student-nominated award that reflects the high esteem and deep appreciation felt by students for a faculty member’s exemplary efforts in the pre-clinical curriculum.

Other Awards

Department of Pathology and Laboratory Medicine Special Inaugural Health Disparities Research Awards

The Health Disparities Research Awards for Pathology and Laboratory Medicine initiative was created to support health disparities research and highlight its importance in our joint departments. Our joint DEI Committee was led by Drs. Ramachandran and Bakhtary in conducting the review process for these new awards.

The three inaugural recipients for 2022-23 funded through this new initiative are:

Julia Ye, MD, PhD, Bennett Lareau-Meredith, NP, MSN, Cynthia Gasper, MD, and Joseph Rabban, MD, MPH (principal investigator) for their project: Interpretation Criteria for p16 Immunoexpression as a Surrogate of High Risk HPV Cervical Squamous Pathology in the Setting of Androgen Use for Gender Affirmation

Cynthia Gasper MD (principal investigator), Peyman Samghabadi, MD, and Nikka Khorsandi, MD for their project: Multifocal squamous intraepithelial lesion of the lower anogenital tract in patients treated at an urban safety net hospital versus an academic medical center

Mima Geere, MD, MS (principal investigator) and Kara Lynch, PhD for their project: Validation of a new easy-to-use panel measuring Environmental Toxins in Urine and Blood by LC-MS/MS in the underserved homeless population of San Francisco

Dept of Pathology Digital and Computational Pathology Award

By using Endowment Funds from the Dept of Pathology's Distinguished Professorships, the dept was able to purchase 3 high-end computer workstations, which enable computational pathology projects already being done in-house with the previously purchased additional hardware (scanner and high capacity server). In addition, Dr. Iain Carmichael from UC Berkeley will soon have an adjunct appointment in our department; his expertise with additional support from the UCB Statistics Department will create excellent opportunities for all dept members to pursue and co-lead cutting edge collaborative computational pathology projects. These projects could benefit the department in various ways, not only in simpler matters such as improving workflow in routine diagnostics, but also aiming towards novel feature extractions, risk stratification, treatment response predictions, etc.

Book Announcements

Abul K. Abbas, MD, Professor and Chair Emeritus, announced that **Dr Jayanta Debnath** accepted the invitation to join the editors of Robbins and Cotran Pathologic Basis of Disease. Jay will be the newest editor for the next edition, which is scheduled for publication in early 2025. He continues the strong tradition of UCSF faculty being involved as editors and authors in the world's leading Pathology textbook.

Book Announcements

Yunn-Yi Chen, MD, Professor and Senior Pathologist, Breast Pathology Division, is co-editor of the newly published book, Springer; Nov 25th, 2022, 1009 pages, 2nd Edition, entitled: **A Comprehensive Guide to Core Needle Biopsies of the Breast**. UCSF faculty also contributed to 4 chapters in the book: Chap 7, Fibroepithelial Lesions by Drs Gregor Krings and Yunn-Yi Chen; Chap 12, Less Common Triple-Negative Breast Carcinomas by Drs Poonam Vohra, Yunn-Yi Chen, and Gregor Krings; Chap 14, Atypical Lobular Hyperplasia and Lobular Carcinoma In Situ by Gregor Krings, Helena Hwang, and Yunn-Yi Chen; and Chap 15, Invasive Lobular Carcinoma by Eliah Shamir, Helena Hwang, and Yunn-Yi Chen.

Linda Ferrell, MD, Emerita Professor, is again Co-Editor for the 8th Edition of the **MacSween's Pathology of the Liver**, Elsevier. The first edition of this textbook was published in 1979, with Prof Roderick N.M. MacSween as lead editor, and other distinguished liver pathologists including Prof Peter Scheuer, and Peter Anthony, and since then, this textbook has been the leading liver pathology textbook in the world. The three editors (Burt A, Ferrell L, and Hubscher S) of Editions 7 and 8 are all stepping down after this edition, so this may be the last edition of MacSween's famous text; Dr Ferrell also served as co-editor for Editions 5-7 (2006, 2012, 2018). Dr Sanjay Kakar, Professor and Chief of the Gastrointestinal and Hepatobiliary service, contributed to this book in the 7th and 8th editions as one of 4 co-authors for the chapter: Tumours and Tumour-like Lesions of the Liver, by Linda D. Ferrell, Sanjay Kakar, Luigi M. Terracciano, and Aileen Wee.

Announcements

New Leadership Appointments

The following individuals will be taking on new leadership roles in our Dept as of July 1, 2023:

Elham Khanafshar: Vice Chair of Clinical Operations/Medical Director of Pathology Services, and Mission Bay CLIA Laboratory Director

Brad Stohr: Vice Chair of Anatomic Pathology

Yunn-Yi Chen: Mount Zion CLIA Laboratory Director

Ron Balassanian: Cytology Laboratory and FNA Clinic Medical Director

Sarah Umetsu: Immunohistochemistry Laboratory Medical Director

Anatoly Urisman: Associate Medical Director of Digital Pathology

New Faculty Appointments

Georgios Deftereos, MD, Associate Professor, joined the Department this year as part of the Molecular and Cytopathology team, with his primary office at the FNA/Cytopathology MB site, and secondary office at the CCGL Lab (Mt Zion) site. Dr Deftereos previously was at the University of Utah School of Medicine, where he served as Section Head of Solid Tumor Molecular Oncology, and Medical Director, of Molecular Oncology.

Anastasiya Pigal, MD, H&N joined the department this year as a staff physician contributing her experience and expertise to the Head and Neck/Endocrine pathology subspecialty group. Her office is in the Precision Cancer Medicine Building (PCMB) at Mission Bay where she interacts with the both the Head and Neck/Endocrine and Cytopathology services. Dr. Pigal attended medical school in Minsk, Belarus, and residency at Nassau University Medical Center and Long Island Jewish-North Shore in New York. After completing her Cytopathology Fellowship at Thomas Jefferson University, she practiced general surgical pathology and cytopathology until her recent relocation to California.
